

James A. Bedor, D.D.S., P.C.  
Corinne L. McIntyre-Miller, D.D.S.

Dear Patients,

We have been thinking about you and hope that you and your family are safe and healthy. Everyone has been through a lot and is ready to start normal routines again. As we welcome you back to our office, we want to reassure you that your safe treatment here is our number one goal.

We are following the most recent advice from the CDC and our professional organizations to make changes to keep you, our other patients and our staff, safe from infection. Some changes include:

- We are allowing more time between appointments to manage social distancing between patients.
- Our staff will ask you pre-screening questions prior to your appointment.
- Please use the hand sanitizer that we have available when you come into the office
- We will ask you to wait in the vestibule area so that you may be pre-screened prior to entering the building proper. Only one patient will be allowed in the vestibule area at any given time.
- We will take your temperature before your appointment.
- We also ask that you come into the office alone. If necessary, one caregiver or family member may come in with the patient.
- We have removed hard-to-disinfect items in the waiting room to make it easier to clean frequently during the day.
- You will see that all staff will be wearing masks.
- We ask that everyone who enters the office wear a face covering or mask.
- There may be other changes as we try to keep social distancing to six feet.

We are happy to answer any questions you may have about the steps we are taking to keep you, and every patient, safe in our office. Please call our office at (248)698-8330 if you have any questions or to make an appointment.

We look forward to seeing you soon.

Sincerely,

James A Bedor, DDS  
Corinne Lynn McIntyre-Miller, DDS
